

LOW - VOLTAGE HEADS

John Head T20

DESCRIPTION

The John display head by Tech Lighting combines design simplicity with practical technology. This simple display head puts light where you need it the most by allowing for a full 360° head rotation and 360° pivot to direct light beam to the desired location. The John head is available in three on-trend finishes and can be customized to hang at five distinct stem lengths. Diversify the overall look and feel of the John by combining with the complementary Monorail or Monopoint systems by Tech Lighting. This low-voltage display head is ideal for commercial lighting applications such as retail stores, libraries and galleries. The John ships with an integrated lens holder to accommodate a fully dimmable MR16 lamp (sold separately). Integral louver lens holder can hold a single glass lens (sold separately) or an eggcrate louver (included). Low-voltage, MR16 lamp of up to 50 watts (not included).

INSTALLATION

Socket terminates with FreeJack male connector, which may be installed into a system connector. Elements ordered with a system prefix include a connector for that system. For use on T~TRAK, order FreeJack version and T~TRAK FreeJack Connector (sold separately).

ACCESSORIES & OPTICAL CONTROLS

Eggcrate Louver

WEIGHT

0.2lb / 0.09kg ±

satin nickel

straight

with eggcrate louver
