Lamp (Bulb) Description	1 x 120W Par 38 Medium Halogen (Included) + 100W T8 E26 Base Frosted Halogen
Environment	Indoor - Dry Location
Dimming	Dimmable
Finish	White
Technical and Product Description	Achille Castiglioni first designed the Stylos Floor Lamp in 1984.

The halogen flood lamp illuminates the column at the base. an an incandescent light provides additional diffused lighting that emits through the top. Each bulb has a separate switch. The metallic base with silver finish is weighted to prevent the fixture from toppling.

The halogen lamp source emits diffused and reflected light.

Inspiration Behind the Design:

Achille Castiglioni was inspired by ordinary things, materials that people see and use on a daily basis. His philosophy "less is more" is evident in his designs where a very small amount of material is used in crafting larger than life pieces. The Stylos Floor Lamp is the perfect example of this.

Electrical

Voltage	120
Switching	Dual foot switch fitted on power cord operates two light sources at top and bottom of column
IP Rating	IP20

Physical

Cord Length (inches)	112" - Black
Construction Material	Plastic and steel
Weight	21.16 lbs

FU631004 White
